HiFi Player

Handheld players

Music players for taking the music on the go. These players rock a retro look and behavior while playing modern music files. Most players offer a retro look but support multiple ways to load Mp3s or other files to play music. All players come with a 1 year warranty and the initial player includes everything you need to get the music playing as well as the curious and jealous looks on the subway. We also offer a wide variety of accessories to take the epicness even further.
