RETRO MUSIC PLAYERS

HANDHELD PLAYERS

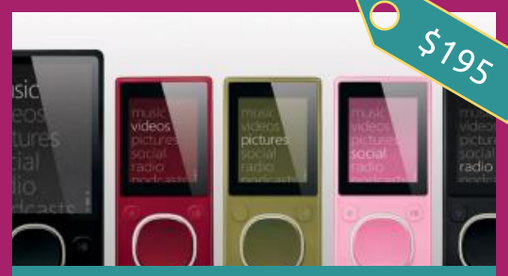

Music players for taking the music on the go. These players rock a retro look and behavior while playing modern music files. Most players offer a retro look but support multiple ways to load Mp3s or other files to play music. All players come with a 1 year warranty and the initial player includes everything you need to get the music playing as well as the curious and jealous looks on the subway. We also offer a wide variety of accessories to take the epicness even further.

PRODUCT INFORMATION

Delivering every note as the artist intended with High-Resolution Audio

Enjoy the subtlest nuances of studio-quality sound in higher than CD quality with High-Resolution Audio. Passion for music unites every component from signal to speaker, so it feels like the artist is performing right in front of you. High-resolution audio files usually use a high sampling frequency of 96 kHz or 192 kHz at 24-bit.

Capturing every note and nuance with DSEE HX

Take the concert feeling home and experience your music as the artist intended, in near High-Resolution Audio quality. DSEE HX upscaling technology uses an algorithm to analyze your music and replace any lost information, so that the quality is almost high-resolution level. Choose from 4 additional modes to the standard to bring out the best in your music.
